Good Afternoon Dr. Stewart,
Attached is the BOH policy committee agenda for tomorrow morning. I have also attached an updated BOH bill tracking list (9 active as of Friday).

We will review major topics included in the bills that continue to advance : Governor appointment of Commissioner, BOH becoming advisory committee, BOH member qualifications, Amended duties of OAS, Capping Commissioner salary, etc, as well as the current status of the 2017/2018 second special session.

A few newly introduced bills will also be brought to your attention, especially HB3468 regarding a potential medical marijuana program per SQ788.

Bills that have been identified as having an impact on OSDH resources (either through additional cost, staffing, or function) will also be discussed.

I'm looking forward to the conversation tomorrow.

Thank you,
Buffy
